

The **POWERROLL G-SERIES** was created specifically for the rigors of the Pulp & Paper industries.

## PULP & PAPER INDUSTRIES

- *The patented 'Solid Direct Drive' and fully welded, boxed chassis is engineered to withstand massive impact loads.*
- *Three planetary gearing options to move up to 40,000kg (90,000lb) rolls.*
- *Intelligent controller, rechargeable Battery Packs and high torque DC motor.*

### High Capacity Battery Packs

Our high capacity battery packs provide exceptional torque with long run times – generally in excess of an 8 hr. shift.

### Quick Change Batteries

The "quick change" encased packs can be switched in less than 5 seconds. No wires or plugs to connect.

### Battery in Base Design

The battery pack is placed in the base resulting in a lighter handle assembly and easier machine maneuverability.

### Robust Gearbox

Triple planetary gearbox with 3 ratios to match speed and torque capabilities of your RGB to your application.

### Heavy Duty Chassis

Patented "Solid Drive"® all-welded, fully boxed chassis, high torque motor & nested gearbox within stacked cylinders of heavy wall tubing.
