

SMARTER. SMALLER. STRONGER.

SAFETY CHOCK (CABLE)

PowerHandling's Cable Chock, designed specifically for the cable industry, eliminates the strain of picking up and moving chocks. PowerHandling's Chock comes equipped with an ergonomic, 44", user-friendly handle and wheels at the base, allowing for easy adjustment and placement, removing the need for the user to bend over and pick up the chock. PowerHandling's **Cable Chocks** are designed with a strong and durable solid rubber composition, making our chocks the perfect solution to stop, grip and hold large cable reels.

- Adjacent Wheels for Easy Moving and No Lifting
- Impact Resistant Rubber Chock for Heavy Duty Use
- Steel Handle With Comfortable Rubberized Grip
- Clamped & Bolted Steel Base
- Painted "Safety Orange" for High Visibility
