

SMARTER. SMALLER. STRONGER.

Premium Training Program

Our Premium Training Program is designed to provide a complete experience that includes an in person Training Specialist from PowerHandling. Premium Training is conducted at your site, with instructor led sessions. Our programs work with you to deliver efficient training on PowerHandling machines and focuses on teaching best practices and mindful operating habits.

The Premium Training Program goes above and beyond to provide operators with hands-on training and immediate feedback. Operators are also provided with videos, slide decks and operator checklists to ensure each operator receives the crucial training needed in order to have effective operations.

Below are some of the services provided in our Premium Training Program:

- ❖ **In person, onsite training**
- ❖ **Hands-on training guide**
- ❖ **Supplementary training material**

Deliverable Results

PowerHandling's training programs work to support the effective training and performance of our equipment as well as providing better knowledge and understanding of machine use to operators.

Key takeaways from our Premium Training Program:

- ✔ **Identifying preoperational inspection procedures**
- ✔ **Giving feedback to operators**
- ✔ **Pedestrian best practises**
- ✔ **Identifying proper and improper operation**
- ✔ **Identifying common potential hazards**
