

The Perfect Alternative to a Manual Pallet Jack

EPT44-H

Electric Jack

About the EPT44-H

The EPT44-H has a 4,400 lb. capacity and powerful Li-ion battery power making it the perfect alternative to a manual hand pallet jack. The EPT44-H can complete the same work in half the time as a standard manual jack and helps to reduce operator fatigue and strain while increasing productivity. The EPT44-H has a small turning radius and the size is no larger than a manual pallet jack, making it the ideal solution for confined spaces like elevators, trailers and, containers.

Load Capacity

4,400 lb.

Battery Capacity

48V / 15Ah

Battery Type

Li-ion

Fork Length / Fork Width

48 in 27 in

Traveling Speed

Laden - 3mph | Unladen - 3.7mph

Gradeability

Laden - 6% | Unladen - 20%

Features:

Durable Design: The EPT44-H features a steel frame and integral forks, creating a durable and sturdy design.

Hydraulic Power: The hydraulic unit is highly effective with heavy loads, producing exceptional lifting and lowering strength.

Superior Traction: The large drive wheel increases traction and provides strong climbing power with 6% gradeability with a full load.

Braking System: The EPT44-H features an electromagnetic braking system to ensure excellent stopping power while the vehicle is loaded and unloaded.

Simple Controls: The butterfly direction switch has a sizable contact surface delivering comfortable operation with moderate pressing and an easy-to-read LCD display.

Li-ion Battery Power: The Li-ion battery pack lasts up to 3 hours of continuous use and requires just six seconds to replace the battery.
