EPT44-H

FULLY ELECTRIC PALLET JACK

Call our Sales Team **+1 (888)-377-6937**

- **Simple Controls:** A small amount of pressure on either side of the butterfly switch adjusts speed and direction precisely.
- **OLED Display:** This easy to read screen displays error codes and reports on battery health.
- **Enhanced Tiller Function:** Easily maneuver in tight spaces with the tiller in the upright position.
- **Hydraulic Power:** The electrically-driven hydraulic lift increases productivity and reduces employee effort by eliminating pumping.
- **Durable Design:** The EPT44-H features a robust steel frame for heavier loads with both narrow and wide fork options.

- **Li-ion Battery:** This compact Li-ion battery gets up to 3 hours of continuous use and can be replaced in just six seconds.
- **Brushless Motor:** A powerful 1.0 kW motor provides increased efficiency and is virtually maintenance free.
- **Superior Traction:** The large polyurethane drive wheel increases traction for traveling, climbing, and stopping.
- **Braking System:** An electromagnetic braking system ensures excellent stopping power while the vehicle is loaded.
- **Enhanced Protection:** The emergency stop button and a shell covering reduces the risk of injury.
