## Material Handling Accessories for the Paper Industry

PowerHandling provides specialized solutions to improve efficiency and safety in paper roll handling. Designed for precise alignment and seamless operation, our accessories ensure reliable support for roll transportation, positioning, and controlled movement..

### Why Choose PowerHandling Accessories?

- ✓ **Reliable & Durable** – Engineered for long-lasting performance.
- ✓ **Ergonomic & Safe** – Reduces strain and enhances operator control.
- ✓ **Optimized for the Paper Industry** – Designed for efficiency and precise handling in paper roll applications.

#### Paper Chock

- **Prevents Unwanted Roll Movement** – Secures paper rolls in place for stable handling.
- **Effortless Positioning** – Equipped with a handle and wheels for easy maneuvering.
- **Engineered for Industrial Use** – Designed for durability in demanding environments.

#### Lateral Skate

- Enables smooth and effortless sideways movement of heavy paper rolls.
- Designed for precise alignment adjustments in confined spaces.
- Improves efficiency in roll handling operations.

#### Mobile Paper Turner

- Effortless 360-degree rotation allows smooth and easy repositioning of paper rolls.
- Compact and mobile design for precise alignment and controlled movement.
- Reduces physical strain while enhancing workflow efficiency.
