POWERHANDLING
SMARTER. SMALLER. STRONGER.

POWERROLL A- SERIES

PowerRoll A-Series: Air-Powered Strength for Roll Handling

The PowerRoll A-Series is engineered for efficiency, delivering reliable strength and precision when handling heavy loads. Designed for demanding applications, it features a compact yet durable frame, a pneumatic drive system for smooth performance, and responsive controls for seamless operation.

Air-Powered Efficiency

Pneumatic system delivers consistent, maintenance-friendly performance.

Extreme Load Capacity

Handles paper rolls up to 62,000 lbs with ease.

Effortless Control

Ergonomic design for smooth handling of large rolls.

Technical Features

Power Source: Air- powered for smooth and efficient operation.

Load Capacity: Up to 62,000 lbs for heavy-duty handling.

Motor System: Pneumatic drive designed for reliable and consistent performance.

Ergonomic Design: Adjustable swivel-pivot handle for optimal maneuverability and operator comfort.

Optimized Traction: Engineered for superior grip on various surfaces.

Why choose us?

- Exceptional Support
- Innovative Technology
- Maximized Efficiency
- Unmatched Durability & Reliability

APPLICATIONS

- **Manufacturing:** Streamlines handling of massive paper rolls.
- **Storage & Logistics:** Enhances efficiency in transporting and positioning rolls.
- **Industry-Wide Use:** Optimizes roll movement across large-scale operations.
