POWERHANDLING
SMARTER. SMALLER. STRONGER.

POWERROLL L-SERIES

Powerroll L-Series: Unmatched Power for Heavy Duty Handling

The PowerRoll L-Series is built to tackle tough applications with ease, providing smooth operation for moving heavy paper rolls. Engineered for durability, it features a sturdy frame, a powerful direct drive system, long battery life, and a maintenance-free motor, ensuring reliable results when you need them.

Zero Maintenance

Brushless motor:
Efficient with no maintenance.

Heavy Duty Performance

Designed to handle up to 85,000 lbs ideal for heavy-duty tasks. .

Extended Runtime

Long-lasting NiMH or Lithium for uninterrupted performance.

Technical Features

Load Capacity: Push up to 85,000 lbs.

Motor and Drive System:
Brushless, chainless, high-powered DC motor paired with an advanced drive system for low maintenance, delivering precise control for seamless operation.

Battery: NiMH and Lithium options with drop-in, fast-swap design.

Handles: Swivel-only for enhanced control and visibility.

Applications: Maneuver Paper Rolls within Corrugators, Converting, Packaging and Container, Paper Mills, and Print Facilities.

Ergonomic Controls: Comfortable trigger throttle and telescopic handle ensure precise speed and height adjustments.

Why choose us?

Exceptional Support
Innovative Technology
Maximized Efficiency
Unmatched Durability & Reliability

APPLICATIONS

Manufacturing: Streamlines roll handling for a smooth workflow.

Storage & Logistics: Ensures efficient roll movement and positioning.

Industry-Wide Use: Enhances efficiency across the paper supply chain.
